You're all alone, alienated  
Figure your thoughts. Do you make it?  
We can too, it's in the heart  
Set Yourself Apart!

Figurize your views, do you really  
Or is it just security?  
We can too, it's in the heart  
Set Yourself Apart!

Listen... to yourself

8. The Joke's On You

The Joke's On You!  
The Joke's On You!  
The Joke's On You!  
The Joke's On You!

It all started when I went to school  
You were playing me as the fool

I laugh  
We laugh  
I laugh... at you!

Screaming at me, you're wasting my time  
Your opinion is not worth a dime  
I've been waiting for this day so long  
That's why I'm writing this song

I laugh  
We laugh  
I laugh... at you!

Because The Joke's On You!
