All I ever see, we never get a break. We've been
working for days
I feel the heat burning down my back. Blood sweat and
tears, will you testify to that?

I feel the heat you give baby, I never want to say
farewell oh
Our passions will rise when the kingdom it falls

Nothing lives for long, I'm shackled at the feet. I've
been working as your slave
Try hold me down and you move and wake the beast
I'm on top girl, as I never miss a beat

I feel the heat you give baby, I never want to say
farewell oh
Our passions will rise when the kingdom it falls

You're my Golden Sun

Take my hand and rule the world
Across this desert girl

Giving all I've got, when there's nothing left to give. I'll
be fighting till the end
Raise your flag girl don't let it drop. Dark nights where
the sky's cold, the land's hot
I don't want to know...so don't tell me
Demons whisper in my ears, they're from the dark side
Raise your flag girl don't let it drop. Dark nights where
the sky's cold the land's hot

I feel the heat you give baby, I never want to say
farewell oh
Our passions will rise when the kingdom it falls

You're my Golden Sun
Take my hand and rule the world
Across this desert girl
