Let me and heal the greep smoke
I came back on my detritus till I go
(My brain on drugz)
I pop a lot till my puscus appear
As my ex-wife feel

(My brain on drugz)
Sip, sip, sip, sip, cops after cops
I can get on these
(My brain on drugz)
Ain't so say, I will give back better if revenging
(My brain on drugz)

But probably on earth, ask opinion and whistle
I like the three, every day right here like would be
Christmas
I'm glading my stuff, my worse coming like double
And now my way is up, is why I got locked for
I'm on real complain, that can afford you OG
Don't smack blood after blood, nice truck, people
double g
This why keep it lockin, when it smell like ody
I ain't go for every single moment twisted, no need
some green

Let me and heal the greep smoke
I came back on my detritus till I go
(My brain on drugz)
I pop a lot till my puscus appear
As my ex-wife feel
(My brain on drugz)
Sip, sip, sip, sip, cops after cops
I can handle with this
(My brain on drugz)
Ain't so say, I will give back better if revenging
(My brain on drugz)

I still coding, zen is, zen is
Cough like with me, can you handle it, handle it?
Or tomorrow you ain't give me the top?
Te sudo, es ludo,

Eh, have you ever been in mother world?
Looking villain, so don't go

Let me and heal the greep smoke
I came back on my detritus till I go
(My brain on drugz)
I pop a lot till my puscus appear
As my ex-wife feel
(My brain on drugz)
Sip, sip, sip, sip, cops after cops
I can handle with this
(My brain on drugz)
Ain't so say, I will give back better if revenging
(My brain on drugz).
