[Hook: Future]

It's over 25 girls in my section

Lets make a movie tonight, you won't regret it

Fo real, Fo real

You know the money bring the cars, the cars bring the
hoes

Rockstar life, thats how it goes

Fo real Fo real

[Bridge: Future]

We got that drink, hell yeah we got that drink

They wanna pop champagne, yeah they wanna drink

Fo real, Fo real

[Verse 1: Future]

They wish they were rockstars like us

I bet you wishing they could get fly like us

The same gang of niggas in here with money on us

We got them mollies in here, they mix that Xan and that

Tuss

Ain't go to church this Sunday but I had church

I paid my tithes with them strippers, bought the bitch a
purse

I'm on a whole other planet, never on the Earth

I brought my whole hood with me and we goin' to

berserk

[Bridge: Future]

[Hook: Future]

[Verse 2: Drake]

Even though I used to act, man, this shit is not a act,
nigga

I have never lied on a track, only facts, nigga

A lot of people willin' to back that, and if you
backtrack

I spoke about this comin' to fruition in my raps,
nigga

Yeah; then it happened, nigga, wassup, nigga?

You just jealous, you just bitter, shut the fuck up

This that I been on a roll shit, I'm back on my old

shit
416, we know your bitch, that Free Band OVO shit,
foâ€™™ real.

[Bridge: Future]

[Hook: Future]

[Verse 3: Future]

I be splurginâ€™™, Christian Dior, I got Chanel on order
I met that girl and had to spoil her â€™™cause that
girlâ€™™s so loyal
I met her when she was a dime and turned into a
quarter
We drank champagne just like itâ€™™s water, drink that
liquor like water
Nigga told me: ho bitch â€™™ thatâ€™™s when I went hard
I bought some guns, I bought some ice and bought
some more lawyers
You try and take what I done sacrificed and worked
hard for
Iâ€™™m in that mode, Iâ€™™m in that zone like when a
nigga raw
Iâ€™™m celebratinâ€™™ every day, goddamn it I could
be starvinâ€™™
Letâ€™™s have a toast to all my niggas runninâ€™™ up in
apartments
We had a good year this year, we made a lot of
fortunes
And we very fortunateâ€™™!
