[Chorus]

I done been lied to, I been neglected,
I done had all kind of people turn against me!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!
I done took losses I done been crossed,
I done heard all kind of rumors that was false!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!

[Verse 1]

You can't break me, I'm solid
I go hard bout it
Can't break me down I break laws
Don't ever abide by it
I let my haters be my motivaters
And keep grindin'
I make my moves when I want to
Make my moves cause I ain't even trying
To listen to another n***a talk
What he gonna do and he lying
I see it if I want it
I'ma get it straight up buying it
I wear that Freebandz s**t
Cause Freebandz clothing line i desinged it
And thinking about that in 13 years
You see what young n***a fying in
G5, G6, Calssified
I done hit the bullseye

When you spread the rumors
Make sure to tell them i'm a multi
Millionaire, ain't playing fair
Turn your back, don't even care
Cause I could wake up any day
Travel anywhere!

[Chorus]

I done been lied to, I been neglected,
I done had all kind of people turn against me!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!
I done took losses I done been crossed,
I done heard all kind of rumors that was false!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!

[Verse 2]

It's time to show and prove
You rather see me lose
But I refuse to lose
It like I run off jet fuel
I'm making major moves
You tryin' to peep the moves
I drop 10 hits
I got them real confused
A hit ain't nothing to me
I make them in my sleep
That's all you want from me
I know I'm making history
I know you greasy
And you greedy
But I'm a genius
And I be fiending
To set the streets on fire
Catch me flying by
Ain't got the time to stop
And kick the bo-bo with you boy
My time is very precious
That's right, every second
Too many hard times
I'm thinking about investing

[Chorus]

I done been lied to, I been neglected,
I done had all kind of people turn against me!
They try to bring me down,

I'ma go harder!
You try to bring me down,
I'ma go harder!
I done took losses, I done been crossed,
I done heard all kind of rumors that was false!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!

[Verse 3]

You watch me go through hell
You seen me run through bails
You know I heat them corners
Everyday and cop them sales
You hating m*****s
Don't want to see the kid prevail
Got hit up with the shell
Now my CD on the shelf
If I can take a bullet
Then I can take the rumors
Through all the losses
I never lost my sense of humor
I kept it pushing
You keep on looking
You holding not falling
Even at my worst
I'm at your best
Flaws and all, these scars and all
I'm standing tall, I won't fold
I got money comming out my pores
Music in my soul
I run the globe, I'm in my mode
This ain't just a flow
Rock to riches, I know that road

[Chorus]

I done been lied to, I been neglected,
I done had all kind of people turn against me!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!
I done took losses, I done been crossed,
I done heard all kind of rumors that was false!
They try to bring me down,
I'ma go harder!
You try to bring me down,
I'ma go harder!
