[Intro:]

Designer clothes, foreign hoes
This mode is really black hippie shit, man
Niggas love it when you
my brother Future
My brother Esco!
When I put my hands on you!
Shit for the ladies spills, nigga!
When I put my hands on you, uh, uh!

Hook:

When I put my hands on you
Im hold your close and I make you feel like youre safe!
(Imma hold you close!)

When I put my hands on you
Imma caress you from your legs and waist and go to
your fingertips
Hey, when I put my hands on you
(When I put my hands on you)
Imma touch you and make you come closer, you come
by my way
You come by my way!

When I put my hands on you
And when I out my hands on you
I wanna feel everything you got to give me, girl, OK!
When I put my hands on

Im a real nigga, with real feelings
Im a rock star! (Future in this!)
Yeah, yeah and I just wanna show you a fiction
(Yeah I just wanna show you a fiction!)

Its part of time when
When the party on me (how we do?)
We can wind it down, we get some.. on your mind
We can talk about it, we can talk it, dwag
(I wanna listen to everything that you have to say!)

You make me feel sometimes great!

Hook:

When I put my hands on you
Im hold your close and I make you feel like youre safe!

(Imma hold you close!)
When I put my hands on you
Imma caress you from your legs and waist and go to
your fingertips
Hey, when I put my hands on you
(When I put my hands on you)
Imma touch you and make you come closer, you come
by my way
You come by my way!
When I put my hands on you
And when I out my hands on you
I wanna feel everything you got to give me, girl, OK!
When I put my hands on

When I put my hands on you, you, you
Imma catch you when you think I shows
Imm show you just how cool I really am
Youre not my homie, youre my friend, youre really like
my fam!
You have a way to ring out the passion in me!
And girl, Im in love with your personality!
When I look at you, I stare at a masterpiece
And I know what to do with to have you lying next to me.
