[Hook: Future]

When I put my hands on you  
I'mma hold you close and I'll make you feel like you're  
safe, I'm hold you close girl.

When I put my hands on you,  
I'mma caress you from your legs, your waist then go to  
your face, go to your face.  
When I put my hands on you,  
I'mma touch you and make you come close so you  
come by my way, you come by my way.  
When I put my hands on you, and when I put my hands  
on you,  
I'm gonna take everything you got to give me girl,  
okay?

[Verse 1: Future]

I'm a real nigga, with real feelings  
I'm a rock star, Future Hendrex  
And-and I just wanna show you affection, and I just  
wanna show you affection  
It's party time when the party over, we can wine and  
dine  
We can expand your mind we can talk about it, we can  
talk it over  
I wanna listen to everything you have to say  
You make me feel sometimes

[Hook]

[Verse 2: Future]

I'mma touch ya when you take off all your shoes  
I'mma show you just how cool I really am  
You're not my homie, you're my friend you're really like  
my fam  
You have a way to bring out that compassion in me  
And girl I'm in love with your personality  
When I look at you, I stare at a masterpiece  
And I know what to do with her if you was layin' next to  
me
