All these damn diamonds, man just mothafuckin look

Keep that shit a milli
I'd be lyin if I ain't dilly
Them True Religion billings pop so many tags, it's silly
My dog called a 30, and they say he gonna feel it,
I'm blowin through the racks like a fan on da ceiling
She got that stupid brain, But my heart ain't got no
feeling
I'm iced out forreal dawg, I'm pourin up trippin,
Slowin up my motions like my diamonds black might
feel me,
My nigga rolling stone, be some mothafuckin hippies
Got a hundred thousand soldiers I ain't mothafuckin
slippin
I can wear my ice anywhere without no supervision

Aye watch me watch everydance,
Watch me light up them list

Watch this chain how it shine
Watch wink and I kiss
Watch the movie, yo, homie I see you watchin this shit
Watch me walk in the club,
Watch how crazy it get
Watch this, watch this
Aye watch this, aye watch this
Watch this, aye watch this
Man watch this, Man watch this
See you standin there just watchin, I'm a give you
somethin to look at
Standin there just watchin I'm a give you somethin to
look at
