Down the wire
Through the wall
Open voice, won't hear my call
Down the tracks
To the east
When I'm gone you'll be released

If that's the way you feel, there's no easy way out
If that's the way you feel, there's no easy way out

Don't you wanna be
Part of the machine
Burning bright to be
The spark ignites the light behind your eyes

Common dress
Tied in knots
Noone knows what you lost
One by one
Two by two
They're killing us, we're killing you

If that's the way you feel, there's no easy way out
If that's the way you feel, there's no easy way out

Don't you wanna be
Part of the machine
Burning bright to be
The spark ignites the light behind your eyes
