Yeah, what were you thinking when they were starting
the show?
Yeah, I was there but I didn't care at all.
I was trying to find you when you get lost in the crowd.
But I'm drunk all the time, I like your helium voice.
There was a guy in the seat next to mine,
watching the girls when the cops made us stand in line.

Yeah, so if it's sad well you still gotta live 'til you die.
Yeah, everyone's chewing the apple you got in your
eye.
It's like at the circus when you get lost in the crowd.
You're happy but nervous, I like your helium voice.

There was a guy in the seat next to mine,
watching the girls when the cops made us stand in line.
