Black tears, white eyes  
No love, no life  
Pale skin, dull heart  
Don't speak, don't stop

Wake up porcupine  
There's nothing on my mind  
We've got some things to hide round here  
Round here

Don't ask, don't tell  
New tricks, no sell  
You're cool, let's fuck  
So long, good luck

Wake up porcupine  
There's nothing on my mind  
We've got some things to hide round here  
Round here

Open up your eyes and tell me what you said  
I never realised you'd get me so upset  
But now and then I find it's easy to play dead instead

Wake up porcupine  
There's nothing on my mind  
We've got some things to hide round here  
Round here  
Round here  
Round here
