"Road You Go Down"

Visit "[Road You Go Down](#)" on MotoLyrics.com

Well in my time allowed I'm wondering where I'm going
so what you doing now?
For what I've done's outlasting my place to be proud
Trust worthy of my music so I sing it to the crowd
And they'll point my direction of where, of where I want
to be
The road to go down, down, down, down, down, down,
down
That road that you go down
What you doing now?
I was 18 and wound up at exit 68
Well it ended all our loneliness
Oh what a place to be
We sat round the corner and talked of you and me
It would point our direction of where, of where we want
to be
The road to go down, down, down, down, down, down,
down
That road that you go down
Oh where everybody's drivin' down some old dusty
round down the sun
Well I think I could see some new pavement comin'
round, comin' round, round, round
Well in my time allowed I'm wondering where I'm going
so what you doing now?
For what I've done's outlasting my place to be proud
Trust worthy of my music so I sing it to the crowd
And they'll point my direction of where, of where I want
to be
The road to go down, down, down, down, down, down,
down
That road that you go down
That road that you go down
Hey! What you doin' now?
