Back by popular demand
Please request my song again
Call a DJ & pick up your phones
Go out and download it as a ring tone

Over and over again
Like my single need you number one on my top10
Make the DJ spin it over & over again
Your like my favorite song
I want everyone listening

Girl your like my single
Wanna play you like my single tonight, all night
Call you on the request line
Get you on my 9 at 9 tonight

When you turn to my radio station
Girl you on in heavy rotation
I wanna feel your beat don't keep me waiting
I wanna feel your music in my face and...
Your melody is so hot
I like your rhythm don't stop
Don't stop the music wanna dance-dance all night long

Over and over again
Like my single need you number one on my top10
Make the DJ spin it over & over again
Your like my favorite song
I want everyone listening

Your on the top of the charts
Want you on top of my heart
Wanna download you like an MP3
So I can take you everywhere with me
Your body's moving like a hot base drum
I want it bad baby can I get some

When you turn to my radio station
Girl you on in heavy rotation
I wanna feel your beat don't keep me waiting
I wanna feel your music in my face and...

Your melody is so hot
I like your rhythm don't stop
Don't stop the music wanna dance-dance all night long

Over and over again
Like my single need you number one on my top10
Make the DJ spin it over & over again
Your like my favorite song
I want everyone listening

The way you move your body girl it's like a pretty song
Download you as my ringtone, you can call me all night
long
And on my iPod your the one that's on my playlist
Lets make a video so I could watch it slow

Over and over again
Like my single need you number one on my top10
Make the DJ spin it over & over again
Your like my favorite song
I want everyone listening

Over & over I wanna spin you girl over and over

Over & over I wanna spin you girl over and over
