you know you like to make a mess
you know you like to make a mess
i'll attend to you and i'll caress
you and the girls and then i'll get some rest

in the morning wake up fresh
in the morning wake up fresh
already getting hard, daisies, cum and cigarettes

you and the girls already undressed

my lovers, my lovers

you are lovely my faithful whores
you are lovely my faithful whores
do you again, more, more, more
you and the girls now smiling and sore
