Taking over assisting with my revelation
Empty spaces as if it was an invitation
Your invasion exceeding every expectation
Now i feed from the many mouths of your persuasion

Ressurrection, infection as i fade away
There's no fear, there is nothing left to make me stay
Fitting in my new skin just tell me what to do
I'm defined, i am blind, i am a part of you

Big black bomb attack
Break down resistance, fight that
Big black bomb attack
Break down resistance, fight back

Big black bomb attack
Break down resistance, fight that
Big black bomb attack
Break down resistance, fight that
Big black bomb attack
Break down resistance, fight that
Big black bomb attack
Break down resistance, fight back

Big black bomb attack
(failing quickly as i'm sinking)
Break down resistance, fight that
(into the sight of this)
Big black bomb attack
(failing quickly as i'm sinking)
Break down resistance, fight that
(into the sight of this)
Big black bomb attack
(failing quickly as i'm sinking)
Break down resistance, fight that
(into the sight of this)
Big black bomb attack
(failing quickly as i'm sinking)
Break down resistance, fight back
(into the sight of this)
