she spread herself wide open to let the insects in
she leaves a trail of honey to show me where she's
been
she has the blood of reptile just underneath her skin
seeds from a thousand others drip down from within

oh my beautiful liar
oh my precious whore
my disease my infection
i am so impure

give it

devils speak of the way in which she'll manifest
angels bleed from the tainted touch of my caress
need to contaminate to alleviate this loneliness
i now know the depths i reach are limitless

oh my beautiful liar
oh my precious whore
my disease my infection
i am so impure
oh

oh

oh my beautiful liar
oh my precious whore
my disease my infection
i am so impure
oh my beautiful liar
oh my precious whore
my disease my infection
i am so impure
