i can take it
sideways
sometimes
some things
waves
feel like
i'm on the other side
of every feeling ever felt
hold it close
...screaming
i've watched this scene a thousand times

(so) i can taste it
and in my head

this is how it all begins
yes, i am becoming
and this is how it all begins
what did you expect?
this is not an exit
this has begun

the blackest eyes
...welcoming...
i can almost see
the new flesh
a new disguise
please
give it to me
i can take it

give it to me
i can take it
