All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you

All I do, I can still feel you
Numb all through, I can still feel you
Hear your call underneath it all
Kill my brain yet you still remain

Crucified after all I've died
After all I've tried you are still inside

All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you
All I do, I can still feel you

All I do, I can still feel you
All I do, I can still feel you
(You remain, I am stained)
