I tried to sneak myself through, tried to get to the other
side
I had to patch up the cracks and the holes that I have to
hide
For a little bit of time even made it work okay
Just long enough to really make it hurt
When they figured me out and it all just rotted away

Don't you fucking know what you are?
Go on get back to where you belong!

You better take a good look cause I'm full of shit
With every bit of my heart I've tried to believe in it
You can dress it all up, you can try to pretend
But you can't change anything
You can't change anything
In the end

Remember where you came from, remember what you
are

Don't you fucking know what you are?
Go on get back to where you belong!
