"When Micky Came In"

It was all so wrong but it seemed so right to my head
When I saw my soul that night surrounding me
With the neon trolls and all the rainbow lights
And I felt like floating on a ribbon of time, but I was
frozen when Mickey came in

I could hear those voices playing with mine but then
Everything went grey and time it was grounding me
I really hope that I make it back
Havn't gone to far
But I knew that everything would be just fine cause I
was faulty as Mickey came in

Oh oh oh mickey came in
Oh oh oh oh
Oh oh oh Mickey came in, yeah
Oh oh oh oh

Never been so high yeah
You're the only sky above
Never been so high yeah
You're the only sky above
I felt my missile die and then I came back to base
