When we want to love, we love
When we want to kiss, we kiss
With a little petting
We're getting some fun out of life

When we want to work, we work
When we want a play, we play
In a happy setting
We're getting some fun out of life

Maybe we do the right things
Maybe we do the wrong
Spending each day
Wending our way along

But when we want to sing, we sing
When we want to dance, we dance
You can do your betting
We're getting some fun out of life

Maybe we do the right things
Maybe we do the wrong
Spending each day
Wending our way along

But when we want to sing, we sing
When we wanna dance, we dance
You can do your betting
We're getting some fun out of life
