[Kanye West]
I told my mama I was on the come up
She said "you going to school I'll give you a summer"
Then she met No Id and gave me his nubmer
10 years later she's driving a hummer
Niggas hustle everyday for a beat from Ye
What i do? Turn around and give them beats to Jay
And I'm rapping on the beat they supposed to buy
I geuss I'm getting high off my own supply
