Turn

Don't turn away from me, my dear  
We've got everything to lose right now  
Right here, the chance to offer up this year  
And up above where we stand  
We'll find little things to take what we can

For everything we knew we'd do  
I turned with you, I turn with you  
And anytime I need the truth I turn with you  
I turn with you

Turn, turn away, right now  
You'll see the greater missing part  
Is me with you and all the distances we flew  
And up above where we stand  
We'll find little things to find what we can

For everything we knew we'd do  
I'll turn with you I turn with you  
So tell me do you need more proof,  
I'll turn with you, I turn with you

Don't turn away...  
Tell me do you need more?

For everything we knew we'd do  
I turn with you, I turn with you  
So tell me do you need more proof?  
I'll turn with you, I'll turn with you

For everything we knew we'd do  
I turn with you  
Oh don't turn away from me...
