I am drawn to wonder, who you are
And I am drawn to thunder, oh where you are
I know you know you are, can we just go this (far)

Keep it out of the branches, we'll stay alight like two
matches, I say
To keep you love in play
Stay away from distractions, we'll break em down into
fractions, I pray
To get your love in play
I get your love in play, I want your love to play

I am drawn to ponder, your lips are
And I, don't want to be torn asunder, oh not this far, oh
I know we know we are, can we just go this (far)

Keep it out of the branches, we'll stay alight like two
matches, I pray
To get your love in play
Stay away from distractions, we'll break em down into
fractions, I pray

To get your love in play

To get your love in play
I want your love to play (your love)
Can I get your love to play (I want)
Yay, ahhh

Keep away from the branches, we'll stay alight like two
matches, I pray
To get your love in play
Stay away from distractions, we'll break em down into
fractions, I pray
We'll get this love in play

Ahh, I'll get your love in play
I'll get your love in play (oooaaa)
I'll get this love in play (oooaaa)
I want your love to play
