In some ways, your just a creature of habit
Hoping to find your way
I'm just a victim of circumstance
Point me to another day and Ohhhh...

Oh don't you love the chase oh don't you love the chase
What happens when you catch it?
Ohhhh Noooo...
Oh don't you love the chase oh don't you love the chase
What happens when you catch it?

If i could sleep...then i just be over-joyed
If i could dream...then my mind can't over-flow
If i we're free...then i'd just be over whelmed
If i can breathe...then i know i must be awake

And some days i see the world with such brightness
Other times life is gray

I'll just search for my happy ending
Just point me in another way and Ohhhh...

Oh don't you love the chase oh don't you love the chase
What happens when you catch it?

If i could sleep...then i just be over-joyed
If i could dream...then my mind can't over-flow
If i we're free...then i'd just be over-whelmed
If i can breathe...then i know i must be awake

Verse 3
Rap

If i could sleep...then i just be over-joyed
If i could dream...then my mind can't over-flow
If i we're free...then i'd just be over-whemled
If i can breathe...then i know i must be awake
