"Trouble Coming Everyday"

Visit "[Trouble Coming Everyday](#)" on MotoLyrics.com

Don't fight me cuz i'm on your side
Just because i'm wrong doesn't make you right
Outta patience, out of sight, out of time
one more chance for me to swallow my pride

I like the way you come off...you don't care just like me
I cant sit still for too long...lets hurry up and leave
this life is not for everyone...no kind of guarantee
they say we're wasting our lives but you can sing with
me like....La La La

Life's exciting when your unconcerned
Who needs actions when you have your words
Don't look now i think my posture just got worse

Trust me i seen it all i got here first

I like the way you come off...you don't care just like me
I cant sit still for too long...lets hurry up and leave
this life is not for everyone...no kind of guarantee
they say we're wasting our lives but you can sing with
me like....La La La

Don't listen to what they say that's when the trouble
starts
Don't listen to what they say...

I like the way you come off...you don't care just like me
I cant sit still for too long...lets hurry up and leave
this life is not for everyone...no kind of guarantee
they say we're wasting our lives but you can sing with
me like....La La La
