I ain't hurtin' nobody  
So get off of my land  
What part of this sentence  
Don't you understand

I'm trying to fix my truck  
I gotta go to work  
Now I know that yer the law  
But somebody's gonna wind up hurt

Before you open up  
Remember these words I said  
I got a feelin'  
Somebody's gonna wind up dead

They're hidin' in the woods  
They got a chopper in the air  
I've only got one good arm  
This fight really don't seem fair

Yeah, I grow a little weed  
Like everyone around  
So if you boys were smart  
You'd be headin' back to town

'Coz I won this purple heart  
For bein' a killin' machine  
And I got no problem with  
Treatin' you people mean
