I.....I know that smile  
and I know that its been a while

slide....that tie off your neck  
forgive me if i'm too direct

you know what to do to make me ooooh  
I know what you like too

take.....take my hand  
your wish....is my command

make...make no mistake  
this is all about a little give and a little take

take me  
lead me to the fire  
make me  
the object of your desire

you know what to do  
you know what to do  
you know what to do  
you know what to do
