(michael kaeshammer / damian graham)

Feelin' kinda lonely  
I know I'm not the only one  
Who wants to turn on the lights  
I'm with my same old, same old  
Every day and every night  
So give me your hand  
And let me make you understand  
How I want to treat you tonight, oh so fine  
You've never felt this good  
On A Saturday Night  
Pretend we're being undercover  
You're my sister, I'm your brother  
Don't know where I would rather be  
We can hear the band begin  
Playin' their late-night swing  
Listening to the sounds of Robbie King  
You know the game  
I know the drill  
If you say "I want", I say "You will"  
You've never felt this good  
On A Saturday Night  
Last call from the bar  
Echoes like a fading star  
but we only have each other in mind  
We've never felt this good  
On A Saturday Night
