Revolt towards corruption, towards pain  
Flee existence, flee sanity, yeah  
Towards denial, towards self mutilation  
Self mutilation

Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe

Flee life, you're dysfunctional  
Evolution of mind, body, soul, spirit is death  
Nothing is nothing or so you say  
Everything becomes everything or so you say

It's all nothing to you so just run and hide away  
It's all nothing to you so just run and hide away

Why try? Why even try?  
If death is nothing  
But decaying flesh  
What's to live for? Nothing

Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe

Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe  
Apathetic selfish destruction, ah, woe

Apathetic selfish destruction
