I hate what you've done to me
I hate what I feel
Pail love gone void
Cracks in your smile lipstick smear
We used to be like animals
Now there's nothing here
Dead bodies spinning
Hula hoops in thier graves
The times are changing
You're not a part of me anymore
Threrere's nothing I can do
But wonder what happened to me and you
Is there no forward regression our past
Memory deflating nothing can last
Drowning slowly in sorrow
Am I selfish, unchanged?
