The practice of godliness
There are many ways
You can adjust your performance

Exercise frequency
Duration and strength in training
Guidelines and recommendations

All of this describes on an axis
Diffraction measured in
Anechoic environment

Vitality for life through knowledge
Alcohol consumption, history is cancer
Tobacco risk, body compensation
Environmental screening, yes, no more irritation

Only the brilliant and clever will find
And thereby gain his trust
Only the brilliant and clever will find
And thereby gain his trust

We played not merely to win
But to play for playing was an end in itself
We played not merely to win
But to play for playing was an end in itself

We played not merely to win
But to play for playing was an end in itself
We played not merely to win but to play

One of the serious resistances
Taken into account
Is the easiest method to use
This method assumes no leakage losses

We can become healthy
Just by educating ourselves
Changing a few habits
And living correct principles

We played not merely to win

But to play for playing was an end in itself
We played not merely to win
But to play for playing was an end in itself

We played not merely to win
But to play for playing was an end in itself
We played not merely to win
But to play for playing was an end in itself

We played not merely to win
But to play for playing was an end in itself
We played not merely to win
But to play for playing was an end in itself

The sphere is generally
Impractical folly
The American way
