You set your eyes upon me  
And wrap your gaze around me  
It hurts so good you drown on me, but  
My blood your breathe, pain's gone there's nothing left  
So breathe on me, breathe on me

When you lost faith who found you...  
When no one stayed around you?  
You let my heart surround you, still  
Your touch in vain, on a white wall I'm one big stain

Chorus

Why do I feel so far away...  
Everyone here trying to keep me sane?  
Even though I'm far away your still with me...  
As you lie awake in bed at night,  
Trying to figure out why your head ain't right,  
It's alright don't you cry,  
Your god is dead you don't have to pray tonight...

Chorus
