Somewhere over the Rainbow staring down a glass
She pretends she is a virgin while she's onstage
shaking her ass
Her whiskey has turned sour, I'm the one she wants' to
please
Never seen a little girl set so nasty when she got down
on her knees...

Her kiss was just like heroin her cum was like cocaine
You know we only stopped fuckin' so she could find a
vein
She makes all of her money down on Hollywood and
vine
But you gotta wait your turn so everybody get in line...

The city is my playground I'm just a dirty little boy,
All the little girls get nasty with my eight inch rock-n-roll
toy

The room is dark and empty like the confines of my
soul
What's left is a little unfeeling, you know passion takes
it's toll
You will feed the demons, yes you will feed the spawn
I'll make you my virgin `cause I can do no wrong...
