"New Life"

Visit "[New Life](#)" on MotoLyrics.com

Welcome to second reality
Live the life you've always dreamed
Be the person you always wanted to be
It's not just an illusion
It's a new state of being
A way to experience your dreams
In second reality you make the decisions
It's not just an illusion

Welcome to your new life

In second reality you make the decisions
It's not just an illusion
