I'm pushing this away  
So I can see  
The season's rearrange  
In front of me  
I'm needing this to stay  
To keep me warm  
Discomfort in the change  
It's all around  
It's falling on me  
Again, I am out  
The seasons changing  
Again  
I'm keeping to this today  
Inside of me  
It takes the worst away  
So I can breathe  
I'm needing this to stay  
To keep me warm  
The season's rearrange  
It's all around  
It's falling on me  
Again, I am out  
The seasons changing  
Again  
It's falling on me  
Again, I'm out  
The seasons changing  
Again  
For this so long  
And I have  
Been waiting for (Been waiting for)  
(And I know, and I know) That it's changing before me  
(And I know, and I know) That it's changing before me  
(And I know, and I know) That it's changing before me  
Changing before me  
So winter's here  
So winter's here
