I keep straining my ears to hear a sound
Maybe someone is digging underground
Or have they...

Yo man Mother Fuckers are clowns man; Hip-hop's too
nice
It's too pretty
What are you gonna do to it Necro?
Take a razor, and slice it!

Yo peep this shit like this
Kill the head kill the body and knows who i'ma ruin
When I float like a dead body and sting like peroxide
on wounds
I'm rolling a fatty like death is coming believe it
Recognize the chain of command I deliver the pain
you're receiving
Brain washing has officially begun
Kid you peep a psycho holding a butcher knife dancing
like reruns
It's raining, as God pisses on earth
I drop bile like a vagina dismisses on birth
Devour my shower that's golden
I'm puffing the sacks golden
Smolden the flesh that holding the fresh cancer
infested colon
How can I make my point to you fools?
I'll drop a dead A&R off a roof and on his chest it will
say Necro rules
I'm a blow the constitution
My shit stays bubbled like light burned flesh
My rhymes are acid in Clorox solution
Your eyes will burn once the acid hits
You'll be blinded like Rosie O'Donnell jumped up 10
feet in the air and
flashed her tits
Life is shady G
In 1976 my parents created me
I've been flipping since 1983
I always took pain as a game
When I was 6 I cracked my head open and looked in the

mirror and saw my brain
Wonder why I'm like an icicle?
At 5 I was hit by a car riding my tricycle
A hit and run son
Mad young in the hospital receiving stitches
Made me vicious
Peeping cretons with Mephisto in their eyes made me
suspicious
Running through glenwood PJ's as a young buck
I didn't dance that fresh I burnt ants to death.
Taste me you will see more is all you need dedicated to
how I'm killing you
You're unhealthy your a felon your PO checks your
Bladder
You're an addict; you beat me I'll deliver you death on
a platter
The customer's always right but this time the
customers left
On a stretcher gasping for breath
Cipher flows like roly polly
Kill yourself slowly plus you're already dead if you're
homely
So bitch, there's a little red dot on your skull so pray
Most of New York's population is filled with mental
patients
Pretending to be normal, pretending to be mental
patients
Gotham got rapists by the pile
Watch out for goons of bile infested with smiles and
dreams of molesting
your child
You gotta pack a black glock with the extra clip when
shit gets thick
You gotta punch a kid dead in the nose if he ever tries
to front and dis
You need to puff a bag of dro's when listening to brutal
shit like this
You gotta rock a lambskin with the spermicidal for a
nasty bitch
Make sure your girl's syphilis is clean before I slide my
tongue up
And I, don't you dare ruin my dinner
My ventriloquism hits you like ism
Sprayed with raid mixed with prism mixed blades
butcher with sadism
I rip your gat when I twist my wrists
1 finger, 2 finger, 3 fingers, 4 fingers fuck it the whole
fist
Rammed up your wife's ass gets murdered type fast
Blast scum up your BC masks
A dirty flesh pipe splash

Pulling and coming in side like sluts like Kimberly
Drumming
You know the steez, I slay my prey
Day by Day
Kill yourself, on some euthanasia shit
Rocking Tim's with razor's on the tip
Today's the day to flip on it, decapitation tip
I'm fascinated with
Leaving you lacerated split on point like an
assassination, here your not,
Some one to have patients with
I'm better off
Letting off
Two clips at you face set it off
To decide is better off
Dead it off
Inject 'till you feel correct
Feel the effects of my hex
Force you to have sex with techs
Chopped at funeral next
Buy my poison I got triple six in my beeper
I talk to my self cause giving my own self therapy is
cheaper
The violence hits you like a spliff filled with some holy
pot
Penetrate your skull like an obituary riff from slowly we
rot
You'll soon be fractions and numerator
Of a denominator when I play dominator
When you're dead your brains embalmed with data
Keeping Vietnam through Vader
Futuristic butcher CD rom cremator
Your spine cracks in 3 D like Imax
You won't be superman no more feel the pain climax
No Anesthesia, even if the doctor takes some codeine
and combines crack
Fine packed and mixed with fenal barbatol liquid
And a razor blade dime sack
Nothing numbs like your future thumbs
I'll put you in a wheel chair, your a crum
A pebble, a worm, a snail
I'll be a mental patient with a red apple on thorosime
when you inhale
Uhhhhh Uhhhhh Uhhhhh
Another blunt filled with dust
And another blunt filled
And another blunt filled
And another blunt filled with dust
Last week someone tried to put me in a coffin
That's the second time a nigger tried to kill me I'm
starting to feel

important
For some cats smile
Ain't their style
But there's something so evil
About seeing a murderer smile its vile
Gore is a tattoo on your mind, suicide is a laxative
It will eat you up inside like you swallowed maggots by
accident
I mean line to main-tain I'm fighting the biggest fight of
my life
You got a black glock with the extra clip when shit gets
thick
You gotta punch a kid dead in the nose if he ever tries
to front and dis
You need to puff a bag of dros when listening to brutal
shit like this
You gotta rock a lambskin with the spermacide for a
nasty bitch
You fucking dirt bags

Repeat till fade

I keep straining my ears to hear a sound
Maybe someone is digging underground
