This is the good for my belief, this is the gun for my relief

This is the god

This is the gun

One is for killing one is for fun... fun... fun!

Pow pow! Easy come pow pow pow easy go

Pow pow! Easy come pow pow pow easy go

This is the good for my belief, this is the gun for my relief

This is the god

This is the gun

One is for killing one is for fun

I am the town that loves to lie, that shame passed by  
This is the city where the widows weep, the only answer  
to my conceit

My god is good my god is right he'll give me what I  
need tonight

My god is good my god is right he'll give me what I  
need tonight

You are the one I recognise but in your warmth I could  
realize

I am the sum of all I despise but I soon start to feel  
Alive!

Yeah yeah yeah yeah yeah yeah!

You are the good for my belief, this is the bullet for my relief

This is the god

This is the gun

One is for killing one is for fun

My god is good my god is right he'll give me what I  
need tonight

Here is the good in my belief, this is the bullet that's my relief

This is the god

This is the gun

One is for killing one is for fun

He is made for my belief here is the bullet for my relief  
This is the god  
This is the gun  
One is for killing one is for fun  
Yeah yeah yeah yeah yeah yeah!

I could kill someone tonight, slip and slide to the hurt  
and high  
Run around with a  
Switchblade  
Come with you in the morning light

My god is good my god is right he'll give me what I  
need tonight  
My god is good my god is right he'll give me what I  
need tonight  
This finger itches for the spike and spoon  
In this city where you weep  
Into the womb that is your only tomb!  
My god is good my god is right he'll give me what I  
need tonight  
My god is good my god is right he'll give me what I  
need tonight  
My god is good my god is right he'll give me what I  
need tonight  
My god is good my god is right he'll give me what I  
need  
Tonight!
