

Pieta Brown**"Higher"**

Visit "[Higher](#)" on MotoLyrics.com

The higher I get, the farther I fall
Sick of it all, get away get away from you
The higher I go, the higher I want to stay
Away from reality and get away from you
The more that I want, the more that you take away
All that I'm trying to say is get away from me
The higher I get, the farther I fall
Sick of it all, get away get away from you

'Cuz I've been down before my friends and I'm not
gonna fall
'Cuz I've been down before my friends and I'm not
gonna fall back baby

I never seem to wonder why
You always want to see me cry
Always try to turn to the ones you love
I never seem to wonder why
You always want to see me cry
Always try to turn to the ones you love

'Cuz I've been down before my friends and I'm not
gonna fall
'Cuz I've been down before my friends and I'm not
gonna fall back baby

I'm so high, I can only take me higher
You can take me higher, I let you take me there
I'm so high, I can only take me higher
You can take me higher, I let you take me there
