Rolling cross the bridge to the arctic  
Border guard is fading fast  
A green wet pile in front of him

Five clear bottles are waiting there  
Flanked by little silver cans  
With blue stripes climbing up the side

Malmo, malmo, malmo

One is gone  
Third is fading fast  
Two more waiting on the window sill

Frankenstein's making time in the can with eva brown  
Jorge is hiding down the block  
Let's show these vikings how to rock

Malmo, malmo, malmo
