"Out All Night"

Visit "[Out All Night](#)" on MotoLyrics.com

I don't need to tell the truth
But I never lie
I don't need to bow to you
You're just passing by
I never wanted to be the one you bitch and moan and
come home to
But as long as you look good, I'll come back to you
Get inside my troubled mind
With all of your threats
Sometimes I think I was blind
But not before we met
I never wanted to be the one that you depend on for
your life
When you cry it smells like soup,
Sometimes shown at night, never be my wife
CHORUS
Stay out all night, I've got a right each time I
Stay out all night, know I just might you make me
Stay out all night, it's just the sight of you tonight that
makes me
Stay out all night, I'm gonna stay out all night
You're an evil little girl
I'm a twisted man
Tear into your perfect world
Make you understand
I never wanted to be the one you bitch and moan and
come home to
But as long as you look good
I come back to you and do the things we do
CHORUS
I would never treat you bad
You deserve the best from me
If you want to keep you place
You'd better get down on your knees
CHORUS
