As thoughts explode  
I'm way too low  
As barrels push me against this wall  
I'll drop the bomb and kill us all  
And laugh while i do  
And there you stand  
Gun drawn each hand  
Metal click of hammers down  
Avert the sounds of a crowd  
Both dead both damned

Western by the flight  
On angel wings tonight  
Bang bang pistolita  
Still there in my mind  
Been for quite some time  
Bang bang pistolita

A verse is drawn  
Quite vague yet long  
As bullets rip my mind it slips  
Concentration is hard to grip  
To spin into thoughts  
Cowboy gun down  
Smoke curls from mouth  
Thoughts of pain evaporate  
Does blood and guts make ya scared?  
The man makes his way out

Western by the Flight  
On angel wings tonight  
Bang bang pistolita  
Still there in my mind  
Been for quite some time  
Bang bang pistolita
