"Girls Like Us"

Visit "[Girls Like Us](#)" on MotoLyrics.com

I've never been a stranger to working hard
But I've been known to play
You won't likely find me letting down my guard
But I'll get drunk and carried away

Girls like us
We don't mess around
We don't tie you up
Just to let you down
Don't girls like us make the world go round and round?

I get up and get dressed and put it on
And act like I got it together
'Cause somebody's gotta put the supper on
And no man would know better

Girls like us
We don't mess around
We don't tie you up
Just to let you down
Don't girls like us make the world go round and round?

At the end of another hell of a day
I wouldn't change a thing
I kick off my shoes, mix up a drink
And get on my knees and pray, pray...

Girls like us
We don't mess around
We don't tie you up
Just to let you down
Don't girls like us make the world go round?
Don't girls like us make the world go round and round?
