Hey bad man
Did you let him through?
Boardwalk scene man where you been
Could have used you in a fight or two

Hey oliver
Did you get the news?
Lone man lonely in universe
With a veil a veil a veil i wish you knew

Just don't let them meddle round
You've gotta see this through
Yes you oliver under the moon

And so so spaceboy please come home
We'll be so lost without you
Cried oliver under the moon

And spaceboy
Got some fightin to do
But big you got and now your not
So worried about monsters at loose

So stand up!
Take a good look at the moon
Cuz if it aint there then we aint here
And spaceboy's got explaining to do

Just don't let them meddle round
You've gotta see this through
Yes you oliver under the moon

And so so spaceboy please come home
We'll be so lost without you
Cried oliver under the moon

Oliver under the moon
