Daddy can you hear the devil drawing near? Like a bullet from a gun. Run daddy run.
All the songs you used to sing to me could rock the birds to sleep. I need you now so please somehow put rockets on your feet. oh oh oh oh
Daddy can you hear the devil drawing near? Like a bullet from a gun run daddy run
I could see that dark cloud coming from a million miles away. Oh how I've dreaded this god forsaken day.
Oh oh oh oh
Daddy can you hear the devil drawing near? like a bullet from a gun run daddy run
momma's been crying in the kitchen. Sisters been afraid of the dark. I've been gathering the pieces to all these shattered hearts.
I don't care where you go to. I don't care where you've been just get out of there daddy as fast as you can. Oh oh oh
Daddy can you hear the devil drawing near? Like a bullet from a gun run daddy run.
