And all those stupid things we buy  
Each other when it's cold outside  
A little warmer and we turn to God to make it cold once  
more  
But all those silly things you got me  
That won't even last until the of  
January when we start  
To hope again for this departure  
Please Return so we can get the things  
We want and forget about the reason  
We are not in school  
Getting presents might be cool but  
But That is not why we are here  
And 5 days later, we've forgotten  
The man who saved or souls  
Cause everybody's wasted  
I'll change my name cause this is rad  
I'll change my names cause this is rad?
