Can you erase the body
That's sent a calling
For the lease
Can you arrest the copy
Forever talking
That drags us underneath

Does your body move
Independently of your voicebox
Of your mind
See you making plans
With your eyes
And eyes don't lie
Eyes don't lie

Can you replace the fingers
Little triggers, little teeth
Can you reduce the silence
Cry of violence
That drags us to the sea

Does your body move
Independently of your voicebox
Of your mind
See you making plans
With your eyes
And eyes don't lie
Eyes don't lie
