The window pane  
Is the only thing I see when I look out  
The frost covered window  
You? I'll come home I know  
I know

That we could be happy  
Lift up the hood or maybe you have a flat  
Cause you should have been here by now  
By now

We could be happy with the finest wines  
I'll sing to you all the time  
Flies by  
Fly away  
Fly away, goodnight

In the vacuums of space  
These feelings are erased  
Without gravity

In the vacuums of space  
These feelings are erased

The setting sun on mars is all you ever wanted  
If only I could name this land
