You were sitting on that silverado bumper
Outside our locker room after the game
Glowing in the tan you got that summer
And i walked by and you said 'hey'
And that night's still clear as day

First time we ever be beat east Lincoln county
Big party down at Ricky bowman's place
You walked up and threw your arms around me
You whispered you loved to watch me play
Yeah that night's still clear as day

Chorus:
There ain't one second times erased
Every detail is still in place
You hold on to what you love
Some things never fade
And that night's still clear as day

We went to catch some fresh air on the back porch
And i slid my class ring to the cross on your gold chain
And you backed my back against those cedar
clapboards
And my lips ain't never been kissed that way
And that night's still clear as day

Chorus:
There ain't one second times erased
Every detail is still in place
You hold on to what you love
Some things never fade

I walked you to your brother's silverado
When he climbed behind the wheel and said okay
Last thing you said is i'll call you tomorrow
But that's a call you never got to make
They blamed it on the fog and pouring rain
That night's still clear as day
