Visit "[Drive](#)" on MotoLyrics.com

I'm ten miles from nowhere, and it's a beautiful night
And for this reason I decided to go for a drive
I ain't got no worries, ain't got a care in the world
All my bills are paid, and I got this beautiful girl

Ridin' shotgun right beside me, with her hair blowing in
the wind
Singing songs with the radio, life is beautiful my friend
This world's gone crazy, shifting daily, time is flying by
so fast
We need to treasure every moment like it's going to be
our last

So instead of getting caught up in this chaos we call
life,
I'm gonna blare this radio, hold her hand, and drive

Sometimes we get so caught up in living right,

that we have somehow forgotten to simply live life
They say there's something wrong with being content,
but I am so happy in this moment I'm in

Driving crazy down this highway with our hair blowing
in the wind
Singing songs with the radio, life is beautiful my friend
This world's gone crazy, shifting daily, time is flying by
so fast
We need to treasure every moment like it's going to be
our last

So instead of getting caught up in this chaos we call
life,
I'm gonna blare this radio, hold her hand, and drive

So instead of getting caught up in this chaos we call
life,
I'm gonna blare this radio, hold her hand, and drive
